Summary

An experienced CNC machine shop, M's Machine provides streamlined quality assurance and supply chain management to large OEMs. Our cost-effective CNC machining services and strong relationships with downstream suppliers result in excellent quality, lower inventory costs and a high level of customer service.

Highlights

- ❖ Established in 1981
- ❖ Experienced, Quality-Focused Team
 - 3-Shift Operation
 - 34 Employees
 - 3 Programmers
 - 3 Quality Assurance Employees
 - 140 Years Combined Machining Experience
- ❖ Low Overhead Location in Northeast Iowa
- ❖ Recognized by Clients for 100% On-Time Deliveries

Capabilities

M's Machine mills, drills, taps and turns a variety of materials, including several grades of steel, stainless steel, castings, aluminum and plastic. Quality has become an instinct for our employees. We also maintain effective relationships with suppliers, which streamlines supply chain management for our customers. Other capabilities include running prototypes and offering suggestions early in the production stage.

Facilities & Equipment

Our facilities include two climate-controlled buildings equipped with more than 20 CNC mills and lathes in 27,000 square feet of manufacturing space. We have worked with parts up to 300 pounds and 30 inches in diameter. One machine handles items up to 5 feet long with 8-inch diameter materials. Our production floors feature several hoists and an overhead bridge crane system with two rails.
